HISTORY

Founded in 1994, GEMVIS is a private incorporated company headquartered in Montreal, Canada. The company has been manufacturing quality metal components and assemblies since 1998.

ACTIVITIES

GEMVIS is a leader in metal fabrication. Housing key metal fabrication steps such as laser cutting, bending, polishing, sanding and welding under one roof allows streamlining of costs and the production process, ensuring quality, cost-effective production of parts and structures for the automotive, aerospace and store display industries to name a few.

TEAM

Partnering with some of the most reputable names in the industry, assists GEMVIS' growing team of dedicated, forward-thinking, professionals in ensuring continuing prosperity for the company's associates, customers, suppliers and shareholders.

MISSION

Distinguish ourselves from our competition by:

“The quality of our products and services,
Our commitment to respect the requirements of our client, including the delivery activities, our competitive prices and the continuing improvement of the knowledge of our employees in order to increase the level of customer satisfaction.”

PRESENCE

Aside from its headquarters in Montreal, Canada, GEMVIS has sales offices in the U.S. states of Virginia and California.

QUALITY

GEMVIS is an ISO 9001:2000 company.
